PremierSort

2 & 3 day services for unsorted mail

The service

PremierSort offers a choice of options depending on your delivery needs.

For more time-sensitive unsorted mail our 2 day service gives you the benefits of automated sorting for faster delivery times. While for less time-sensitive, unsorted and heavier/larger deliveries, our 3 day service provides all round value-for-money.

Both services offer collection at a time to suit you, with “final mile” delivery made through the Royal Mail’s UK network.
